**Mat kultra**  
INSTITUTION FOR  
DEVELOPMENT OF CULTURE

is in action

**Mat kultra** is an institution aimed at development and **promotion of cultural activities in the Zasavje** region. It was established by Regional Development Centre in the beginning of 2004.

Mat kultra is run by a management board: the nine members represent cultural institutions from all five Zasavje municipalities and are themselves active in the field of culture.

The mission of Mat kultra is to:

- create, co-create, publish and trade works of art and other cultural creations,
- connect and cooperate with other cultural organisations, artists and cultural performers from Slovenia and abroad,
- represent the Zasavje region through cultural events,
- raise funds for realisation of cultural projects,
- organise trainings,
- offer professional help in organisation of cultural events.

Since 2004 Mat kultra has organised three **street festivals** in all municipalities of the region, where we hosted various cultural groups and artists from Slovenia and abroad. The events are targeted at all age groups, the prevailing contents are **dance, music, theatre, photography and creative workshops**.

Each June and July the playgrounds and parks thus become urban anthills and centres of creativity.

At the end of 2005 Institution Mat kultra established a **Multimedia Centre** with **M-study room** as a central point. It is equipped with contemporary hardware and software for production and editing of photography, 2-D animation, recording and video post production, printing and web design. The study room assures public access to information and communication technology for a wide circle of users. Our purpose is to implement different creative workshops and trainings in creative use of available technology in culture. One of our intentions is also implementation of basic computer trainings.

is in action

In the very vicinity of the M-study room there is a smaller **art gallery** and a **modern lecture room** for up to 100 people, which is at disposal to Mat kultra.

The core info point of Multimedia Centre is **www.matkultra.si**, where you can find an updated data base of regional cultural institutions and artists, a cultural calendar, public calls for proposals...

Mat kultra is a member of the Slovenian **network of multimedia centres M3C**, which was set up with support of the Slovenian Ministry of Culture and European Regional Development Fund.
